H. EFFECTIVE ANNUAL COST

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the charges you incur and their impact on investment returns when you invest in different Financial Products. It is expressed as an annualised percentage.

The EAC is made up of four components, which are added together, as shown in the results of the EAC Calculator available on our website. The effect of some of the charges may vary, depending on your investment period. The EAC calculation assumes that an investor terminates his or her investment in the Financial Product at the end of the relevant periods shown in the table. We recommend that you complete the EAC calculator before investing. To access the Effective Annual Cost Calculator in respect of the rand-denominated funds, please follow the link at [EAC Calculator](#).
