K. UNCLAIMED ASSETS

- An unclaimed asset is any unit trust investment on which there have been no transactions for ten years, or in the case of a deceased estate, more than three years have passed since we have received the notice of death. PSG will continue reinvesting all income distributions and redemption payments until the unit trust is sold, regardless of the time frame.
- PSG will follow a process of tracing investors or beneficiaries on any unclaimed assets. Any reasonable administrative costs incurred to trace the investor may be recovered from the value of the portfolio, thereby reducing the value of your investment. Tracing will cease where the value of the unit trust investment is less than \$250 and the costs of tracing exceeds the benefit of tracing.
- To prevent your investment becoming an unclaimed asset, it is your responsibility to inform us of any change in your personal information.
- I/We consent to PSG using, including sharing my personal information, to facilitate the tracing process where required.

L. EFFECTIVE ANNUAL COST

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the charges you incur and their impact on investment returns when you invest in different Financial Products. It is expressed as an annualised percentage.

The EAC is made up of four components, which are added together, as shown in the results of the EAC Calculator available on our website. The effect of some of the charges may vary, depending on your investment period. The EAC calculation assumes that an investor terminates his or her investment in the Financial Product at the end of the relevant periods shown in the table. We recommend that you perform the EAC calculation before investing. To access the Effective Annual Cost Calculator in respect of the foreign currency denominated funds, please follow the link at <http://tools.psg.co.za/EAC/OffshoreAssetManagementCalculator>.
