The PSG Money Market Fund Class A has as Total Expense Ratio (TER) as listed above. For the period from 1 April 2014 to 31 March 2015 on an annualised basis, the above percentages of the average Net Asset Value of the portfolio was incurred as charges, levies and fees. A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's.

FUND CHARACTERISTICS

This fund invests in interest-bearing instruments with a maturity of less than 13 months. These are cash deposits and highly liquid fixed interest securities. The fund aims to preserve capital and provide a steady income yield with high liquidity. Investors in this fund should experience no market fluctuations, wish to ensure that their capital remains intact over even the shortest term and there is no suggested minimum period.

RISK CLASSIFICATION

INVESTMENT OBJECTIVE

The fund aims to provide capital security, a steady income yield and high liquidity.

INVESTMENT POLICY

The investment objective of the portfolio is to provide a medium whereby investors can obtain undivided participation in a diversified portfolio of such money market instruments as defined from time to time. The primary performance objective of the portfolio is to obtain as high a level of current income as is consistent with capital preservation and liquidity. Capital gains will be of an incidental nature. The portfolio will comply with legislation governing retirement funding.

Disclaimer: Collective Investment Schemes in Securities (CIS) are generally medium to long-term investments. The value of participatory interests (units) or the investment may go down as well as up and past performance is not a guide to future performance. CIS are traded at ruling prices and can engage in borrowing and script lending. Fluctuations or movements in the exchange rates may cause the value of underlying international investments to go up or down. Where foreign securities are included in a portfolio, the portfolio is exposed to risks such as potential constraints on liquidity and the repatriation of funds; macroeconomic, political, foreign exchange, tax, settlement and potential limitations on the availability of market information. The portfolios may be capped at any time in order for them to be managed in accordance with their mandate. **Fees and Performance:** Prices are published daily and available on the website www.psg.co.za and in the daily newspapers. A schedule of fees and charges and maximum commissions is available on request from PSG Collective Investments Limited. Commission and incentives may be paid and, if so, are included in the overall costs. Forward pricing is used. Different classes of Participatory Interest can apply to these portfolios and are subject to different fees, charges and possibly dividend withholding tax and will thus have differing performances. Performance is calculated for the portfolio and individual investor performance may differ as a result thereof. All performance data for a lump sum, net of fees, include income and assumes reinvestment of income on a NAV-NAV basis. **Source of performance:** Figures quoted are from Morningstar Inc. **Cut-off times:** The cut-off time for processing investment transactions is 14h30 daily, with the exception of the PSG Money Market Fund which is 11h00. **Additional information:** Additional information is available free of charge on the website and may include publications, brochures, application forms and annual reports. **Company details:** PSG Collective Investments Limited is registered as a CIS Manager with the Financial Services Board, and a member of the Association of Savings and Investments South Africa (ASISA) through its holdings company PSG Konsult Limited. The management of the portfolios is delegated to PSG Asset Management (Pty) Ltd, an authorized Financial Services Provider under the Financial Advisory and Intermediary Services Act 2002, FSP no 29524. PSG Asset Management (Pty) Ltd and PSG Collective Investments Limited are subsidiaries of PSG Group Limited. **Money Market:** The PSG Money Market Fund maintains a constant price and targeted at a constant value. The quoted yield is calculated by annualizing the average 7 day yield. A money market portfolio is not a bank deposit account. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressures and in such circumstances a process of ring-fencing of withdrawal instructions and managed payouts over time may be followed. The total return to the investor is made up of interest received and any gain or loss made on any particular instrument. In most cases the return will merely have the effect of increasing or decreasing the daily yield but in the case of abnormal losses it can have the effect of reducing the capital value of the portfolio. **Trustee:** The Standard Bank of South Africa Limited, Main Tower, Standard Bank Centre, 2 Hertzog Boulevard, Cape Town, 8001. FUND CHARACTERISTICS

This fund feeds all investments directly to the PSG Global Equity Sub-Fund, a fund which invests solely in equities, of which no more than 25% thereof may be invested in South African equities. This fund should produce the highest real (above inflation) returns over the long-term. The fund sits at the top end of the risk/return spectrum and investors should be comfortable with stock market fluctuations and should have an investment horizon of at least 5 years.

RISK CLASSIFICATION

INVESTMENT OBJECTIVE

The fund aims to outperform the average of the world's equity markets, as represented by the MSCI World Free NR USD Index (in ZAR) (the "Benchmark").

INVESTMENT POLICY

The PSG Global Equity Feeder Fund is a Rand denominated Equity Feeder Fund, feeding solely into the PSG Global Equity Sub-Fund, a sub-fund of PSG Global Funds Sicav plc. The portfolio's investment strategy will attempt to reduce the comparative risk of loss over an investment period of 4 or more years. The portfolio aims to achieve capital growth over the long term, with the generation of income not being a main objective of the portfolio.
