PSG Global Flexible Sub-Fund – Class C

a sub-fund of PSG International Funds SICAV p.l.c. (ISIN: MT7000034336)

This Fund is managed by PSG Fund Management (Malta) Limited, part of the PSG group of companies

Objective and Investment Policy

Investment Objective

The PSG Global Flexible Sub-Fund (the “Fund”) aims to achieve superior medium to long term capital growth through exposure to selected sectors of the global equity market, bond market or money market by adopting a flexible investment policy.

Investment Policy

The Fund will mainly invest in equities (shares), debt instruments (e.g. bonds) or money market instruments (e.g. T-Bills). The Fund's exposure to each of these asset-classes or, where relevant their industry sector, is expected to vary over time continually reflecting the Manager's view of the relative attractiveness of the equity, bond and money markets globally as well as according to market conditions and economic trends.

Particular investments within these asset-classes or sectors are then selected using proprietary “bottom-up” (focusing on intrinsic value rather than external factors or trends) investment research undertaken by the Manager's Trading Advisor for the Fund, PSG Asset Management (Pty) Ltd. In selecting investments for the Fund, the Manager is not restricted to any particular geographic regions, market sectors or industries.

The Fund may also invest in units of collective investment schemes

whose investment strategy is, in the Manager's view, consistent with the Fund's investment objective.

The Fund is actively managed using the US Consumer Price Index +6% as a performance benchmark (but not aiming to replicate it). The Manager does not actively manage exchange currency risk but has discretion to enter into currency forwards (a type of financial derivative instrument) to hedge material exposures.

Income

The shares in the Fund are ‘accumulation’ shares meaning that rather than paying dividends, the Fund's income is re-invested and reflected in the Fund's share price.

Fund Currency

The Fund's reference currency is US Dollars.

Buying and Selling Shares

You may buy or sell shares in the Fund on any business day in Malta or South Africa subject to certain cut-off times.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within four years.

Risk and Reward Profile

The Fund's rating on the risk and reward indicator is based on historical data and therefore may not be a reliable indication of the future risk profile of the Fund. It should be noted that even the lowest category on the indicator does not mean risk free.

The rating shown is not guaranteed and may change over time.

Why is the Fund in this Category?

The Fund is in category 6 (SRRI) as it invests in financial instruments (particularly equities) which are subject to relatively frequent movements in price (volatility). This volatility may result in gains or losses for the Fund. The Fund's risk and reward category accordingly reflects the historical volatility of investments held by the Fund.

Additional Risks

The Fund's risk and reward category may not capture all material risks to which the Fund may be subject, such as:

Default Risk – One or more bond or other debt instrument issuers could become unwilling or unable to make their scheduled payments to the Fund.

Exchange Rate Risk – The Fund may invest in investments denominated in currencies other than US Dollars, this exposes the Fund to fluctuations in exchange rates.

Liquidity Risk – In extreme market conditions some investments may become hard to value or sell at a desired price.

Geopolitical Risk – investments in equities issued or listed in different countries may imply the application of different standards and regulations, exposure to changes in laws or restrictions applicable to such investments, changes in exchange control regulations or price volatility.

Further information on risks may be found in the “Risk Factors” section in the Umbrella's Prospectus. The Practical Information section below explains how you may obtain a free copy of the Prospectus and other useful information.
