

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you to understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

PSG Global Flexible Sub-Fund – Class A

a sub-fund of PSG International Funds SICAV p.l.c. (ISIN: MT7000013090)

This Fund is managed by PSG Fund Management (Malta) Limited, part of the PSG group of companies

Objective and Investment Policy

Investment Objective

The PSG Global Flexible Sub-Fund (the “Fund”) aims to achieve superior medium to long term capital growth through exposure to selected sectors of the global equity market, bond market or money market by adopting a flexible investment policy.

Investment Policy

The Fund will mainly invest in equities (shares), debt instruments (e.g. bonds) or money market instruments (e.g. T-Bills). The Fund's exposure to each of these asset-classes or, where relevant their industry sector, is expected to vary over time continually reflecting the Manager's view of the relative attractiveness of the equity, bond and money markets globally as well as according to market conditions and economic trends.

Particular investments within these asset-classes or sectors are then selected using proprietary “bottom-up” (focusing on intrinsic value rather than external factors or trends) investment research undertaken by the Manager's Trading Advisor for the Fund, PSG Asset Management (Pty) Ltd. In selecting investments for the Fund, the Manager is not restricted to any particular geographic regions, market sectors or industries.

The Fund may also invest in units of collective investment schemes

whose investment strategy is, in the Manager's view, consistent with the Fund's investment objective.

The Fund is actively managed using the US Consumer Price Index +6% as a performance benchmark (but not aiming to replicate it). The Manager does not actively manage exchange currency risk but has discretion to enter into currency forwards (a type of financial derivative instrument) to hedge material exposures.

Income

The shares in the Fund are ‘accumulation’ shares meaning that rather than paying dividends, the Fund's income is re-invested and reflected in the Fund's share price.

Fund Currency

The Fund's reference currency is US Dollars.

Buying and Selling Shares

You may buy or sell shares in the Fund on any business day in Malta, Guernsey and South Africa subject to certain cut-off times.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within four years.

Risk and Reward Profile

1 2 3 4 **5** 6 7

The Fund's rating on the risk and reward indicator is based on historical data and therefore may not be a reliable indication of the future risk profile of the Fund. It should be noted that even the lowest category on the indicator does not mean risk free.

The rating shown is not guaranteed and may change over time.

Why is the Fund in this Category?

The Fund is in category 5 (SRRI) as it invests in financial instruments (particularly equities) which are subject to relatively frequent movements in price (volatility). This volatility may result in gains or losses for the Fund. The Fund's risk and reward category accordingly reflects the historical volatility of investments held by the Fund.

Additional Risks

The Fund's risk and reward category may not capture all material risks to which the Fund may be subject, such as:

Default Risk – One or more bond or other debt instrument issuers could become unwilling or unable to make their scheduled payments to the Fund.

Exchange Rate Risk – The Fund may invest in investments denominated in currencies other than US Dollars, this exposes the Fund to fluctuations in exchange rates.

Liquidity Risk – In extreme market conditions some investments may become hard to value or sell at a desired price.

Geopolitical Risk – investments in equities issued or listed in different countries may imply the application of different standards and regulations, exposure to changes in laws or restrictions applicable to such investments, changes in exchange control regulations or price volatility.

Further information on risks may be found in the “Risk Factors” section in the Umbrella's Prospectus. The Practical Information section below explains how you may obtain a free copy of the Prospectus and other useful information.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
Charges taken from the fund over each year	
Ongoing charge	1.43%
Charges taken from the fund under specific conditions	
Performance fee	Up to 7% a year of any returns the fund achieves. The Performance fee is calculated on a high-watermark basis. The Performance fee charged for year ended 31 December 2017 was 1.16%.

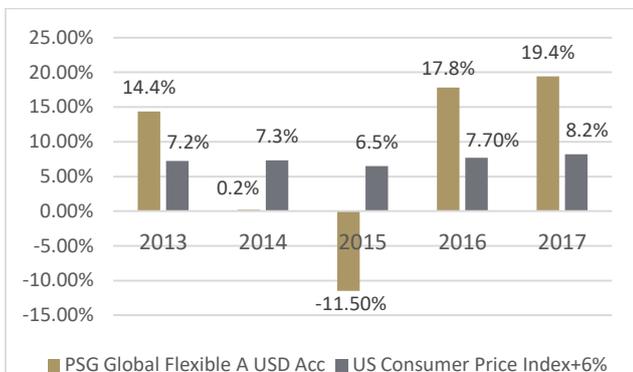

There are presently no **entry** or **exit** charges.

The ongoing charges figure is based on expenses for the calendar year ended 31 December 2017. This figure may vary from year to year. It excludes:

- Performance fees; and
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more detailed information about charges and how these are calculated, please see the “Fees Payable by the Sub-Fund” section of the Fund’s Offering Supplement. The section entitled “Practical Information” below explains how you may obtain a free copy of the Fund’s Offering Supplement, the Prospectus and other useful information.

Past Performance

Past performance is not a reliable indicator of future performance.

The chart on the left shows the Fund’s annual performance in USD for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund’s net asset value at each year-end and takes account of all ongoing charges and performance fees.

The Fund was launched on 2 January 2013.

The Fund’s benchmark is the US Consumer Price Index +6%. The Fund does not aim to replicate the index.

Practical Information

- The Fund’s depositary bank is Sparkasse Bank Malta plc.
- This Key Investor Information document is specific to the Fund as a sub-fund of PSG International Funds SICAV plc (the “**Umbrella**”). However, the Prospectus, annual and half-yearly financial reports are prepared for the entire Umbrella. The Prospectus is supplemented by an Offering Supplement specific to each sub-fund including the Fund.
- The Fund’s assets and liabilities as well as its legal liability are segregated from other sub-funds of the Umbrella.
- This document contains information on the Class A Shares of the Fund as the representative share class. More specific information about this share class and other share classes of the Fund is available in the Prospectus and related Offering Supplement as well as the latest annual and half-yearly financial reports. These documents are available free of charge in English as well as in other European languages of countries where the Fund is registered. They can be found along with other information, such as unit prices, on the PSG Asset Management Group website www.psgkglobal.com.
- The Fund is subject to Maltese tax laws. Depending on your country of residence, this might have an impact on how you are taxed on your investment. For further details, please speak to an adviser.
- PSG Fund Management (Malta) Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.
- Investors may switch investment to any other class of the Fund or another sub-fund of the Umbrella.
- Details of the remuneration policy of the Investment Manager will be available on www.psgkglobal.com. A hard copy of the remuneration policy is available upon request and free of charge from the registered office of the Investment Manager.

Authorisation: This fund is authorised in Malta and regulated by the Malta Financial Services Authority (the “**MFSA**”).
PSG Fund Management (Malta) Limited is authorised in Malta and regulated by the MFSA.
