BEFORE YOU DECIDE

Before you decide to invest in this portfolio, it is recommended that you consider the following:

1. Compare this portfolio with other investment options that could also meet your financial needs. These could include:
 - Unit trust funds available on the PSG Wealth investment platform or from other providers.
 - Other PSPs, available from other product providers.
2. A Key Information Document like this one has to be produced for all financial products to help you make these comparisons. Find Key Information Documents for other products that could suit your needs or ask your financial adviser to get these for you.
3. If you do not have a financial adviser you cannot invest in the PSG Wealth PSP. Consider whether an authorised financial adviser could help you to make appropriate financial decisions. If you obtain advice, insist that your adviser gives you proof that he or she is qualified to advise you on this type of product. You should also get full details of the fees, commission or incentives your adviser and portfolio manager will get if you invest in PSP with his or her assistance.
